INDONESIA 1958: NIXON, THE CIA, AND THE SECRET WAR

Shunned by all in the USA and most every Kennedy assassination researcher or even Prouty biographer this article on Rathouse web site alternative media (similar to Steamshovle Preess) explains what the Indonesia plan was and I recognized it immediately as covered-up history and it became the basis for my hunt for corroboration (other than Rocky Horror metaphor) and I was to find in Giancana Double Cross and many other sources. The Great Treason is based on my study of Prouty and the USA coming fully under Occupation since JFK was killed for Global MK-Ultra to continue.
